Hi,

We signed up with SEOguru to increase the visibility of our site - Capstone.co.in - in search engines like Google, MSN and Yahoo. SEOguru is the first SEO agency that we have hired and I must say, they have provided excellent results so far.

Right at the start of SEO campaign, they provided us with a Pre-SEO report which detailed about the positions where our keywords were ranked at the start of SEO campaign. In addition, they helped us to identify our competitors as well as advised us on making necessary website changes from design and SEO perspective.

Within 1 month of start of SEO campaign, our website traffic soared to 73% and some of the major keywords got top 10 Google rankings. They provided us with SEO campaign report on a regular basis and updated us about the positions of the campaign keywords in various search engines.

All our emails are answered within 24 hours and their response was always good, thorough and professional. In addition, they supported us throughout via Google talk.

It has been a pleasing and learning experience for us to work with SEOguru Technologies. We are happy to work with them as a reliable search engine optimization agency and would love to refer their services to anyone who is looking for a SEO agency. You can contact me directly at rahul@capstone.co.in for any reference.

For Capstone Consultants

A handwritten signature in black ink that reads "R Agarwal". The signature is written in a cursive style and is underlined.

Rahul Agarwal
(Principal)
