

## The Client

BatteryValues.com is a Venice, California based online battery shop with extensive product range of batteries for every gadget.

## The Challenge

- To get regular traffic to the 30 new domains optimized by SEOguru Technologies.
- To keep track of the Google Analytics data and take necessary steps to ensure traffic to the sites.

## Client Order

To generate traffic for the 30 new optimized domains.

## SEOguru Solutions:

- Creating Google Analytics accounts for the 30 new domains of Battery Values.
- Retrieving and incorporating Google Analytics codes at the web pages for all the new domains.
- Keeping track of the website visits, page views and percentage of traffic flow at the new sites through Google Analytics report.
- Preparing Google Analytics report about the website visits, page views and percentage in the change of visits every fortnight.

## Google Analytics Report
